DETAILED ACTION

Response to Applicant's Arguments / Amendments

This Office Action is responsive to the amendment filed on 7/17/07. Claims 1-10 are pending. Claims 1, 2, 4, and 5 have been amended. Claims 6-10 are new. I

In light of the amendments made to the claims, the former 35 USC 112 rejection, and 35 USC 103 rejections over the former Bassill, Matsumoto, and VonPless references have been overcome. Upon further search and consideration claims 1-10 are considered allowable.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: Claims 1-10 are considered allowable since the closest prior art of record fails to teach a washing machine with a cabinet, tub, and drum wherein a steam generating apparatus is disposed inside the cabinet to generate steam by using high-frequency induction heating and the generated steam is directly supplied to laundry placed into the drum. Each of the independent claims of Applicant's invention require these unique claim limitations.
